A CRM APPLICATION FOR THE CHAI SHOP & CO

7. PROJECT DOCUMENTATION

7.1 Documentation Overview

Project documentation records the purpose, requirements, architecture, development process, testing activities, advantages, limitations and future improvements of the CRM Application for the Chai Shop & Co.

7.2 Documentation Contents

- Project Overview
- Purpose and Objectives
- Problem Statements
- Functional and Non-Functional Requirements
- System Architecture
- Development Walkthrough
- Testing Details
- Advantages and Disadvantages
- Limitations
- Future Scope
- Appendix

7.3 Project Purpose

The documentation explains how a Salesforce-based CRM platform can be used to centralize customer, order, product and interaction information for the Chai Shop & Co, while supporting reporting, dashboards, customer management and controlled access.

7.4 Advantages

- Centralized customer and chai-shop business data.

- Reduced paperwork and manual record maintenance.
- Improved customer, order and product data organization.
- Real-time reporting and dashboard visibility.
- Role-based access to CRM information.
- Cloud-based access for authorized users.

7.5 Disadvantages and Constraints

- Requires reliable internet connectivity for cloud access.
- Depends on the Salesforce platform and applicable licensing.
- Offline functionality is limited.
- Users need appropriate permissions and basic CRM platform familiarity.

7.6 Future Scope

- Mobile application integration for staff and field users.
- AI-based customer insights, recommendations and sales assistance.
- Integration with online ordering, payment and customer communication systems.
- Customer loyalty and personalized offer management.
- Sales and demand forecasting for chai-shop products.
- Additional analytics, automated notifications and intelligent CRM alerts.

7.7 Documentation Deliverables

- Requirement documentation for the Chai Shop & Co CRM.
- Design and architecture documentation.
- Development configuration and CRM setup details.
- Testing documentation and validation results.
- User demonstration and operating procedure.
- Future enhancement and expansion plan.

7.8 Conclusion

The documentation provides a structured record of the Chai Shop & Co CRM Application from problem identification through implementation and testing. It also establishes a clear foundation for future improvements, customer-management enhancements and business expansion.
